AMCS Corporation Named One of New Jersey's 50 Fastest Growing Companies for the Third Consecutive Year

Bedminster, New Jersey

AMCS Corporation, a world class process technology, equipment and services provider to the industrial gases, energy, chemicals, semiconductor, metals, and glass business sectors, has again been honored by NJBIZ as one of New Jersey's Fifty Fastest Growing Companies. The award program produced by NJBIZ, New Jersey's premiere business news publication, is presented by ParenteBeard and sponsored by PNC Bank and UnitedHealthcare. AMCS is accepting this prestigious award for the third year in a row.

The NJBIZ 50 Fastest Growing Companies awards program celebrates New Jersey's most dynamic companies who progressively contribute to the success of the state's economic growth and stability.

"We are honored to have once again received this recognition from NJBIZ, New Jersey's premiere business news publication. We thank NJBIZ, and the sponsors for creating and hosting this event that recognizes and supports the business environment in New Jersey," said Mr. Ishmael Chalabi, President of AMCS.

Mr. Chalabi added, "New Jersey is home to many innovative and successful companies. Our overseas clients are often surprised to learn that New Jersey's economy is equal to or bigger than that of Sweden, Norway, Belgium, Poland, or Saudi Arabia. We are proud to be part of this great state. Our export-based success continues, we have expanded our customer base geographically from Scandinavia to Australia, our growth has continued in the Middle East, Europe, North Africa and Central Asia. We are pursuing new opportunities in Latin America and our alternative energy affiliates are expanding into new overseas markets with innovative and competitive technologies."

AMCS Corporation supplies process plants and equipment to the industrial gases, energy, chemicals, environmental, electronics, pharmaceuticals, glass and metals market business sectors. Along with plants producing oxygen, nitrogen, argon, neon, helium, krypton, and xenon, AMCS supplies plants for high-purity electronic gases production, liquefied natural gas production, gas processing application and ship board process plants. As a full service company, AMCS has successfully executed turn-key projects in North America, Europe, South America, the Middle East and the Far East.
