AMCS receives U.S. Department of Commerce's Export Achievement Certificate

Awarded in Warsaw, Poland

July 10th 2009

BRIDGEWATER, New Jersey - AMCS Corp. (www.amscorp.com) A leading global supplier of industrial gas and process plants, technology and engineering services, today announced that it has received the U.S. Department of Commerce's Export Achievement Certificate for recognition of AMCS Corp.'s significant exports to global markets in Poland and Europe.

Mrs. Rochelle J. Lipsitz, Assistant Secretary for Trade Promotion, made the presentation to Mr. Ishmael Chalabi, President of AMCS prior to the official opening of the 2009 Trade Winds Europe Conference held in Warsaw, Poland, April 19th 2009.

"This award is a significant acknowledgment for our company and we are delighted and honored by the US Department of Commerce recognition of our achievements", said Ishmael Chalabi.

"Moreover, our recent participation in the 2009 Trade Winds Conference in Poland has further clarified our international capabilities and made the Federal Government and its partners aware of our commitment to these markets." added Mr. Chalabi.

"As previously announced, AMCS Corp. is in the process of commissioning a 210 ton per day (TPD) ASU for ANWIL SA, which is one of the biggest enterprises in the Kujawy-Pomerania region and leading chemical company in Poland. The facility will be located in Wloclawek, Poland. The ULTRA-Atmseries of plants are of a highly efficient standard, multi-product type, using AMCS' latest process cycle design resulting in a low life cycle cost for the plant products" said Bill Lewis, Vice President Strategy. "We have a successful foreign market strategy and we appreciate the assistance the Trade Winds organization provides with our international implementations."

About AMCS Corp.

AMCS Corporation (www.amscorp.com) located in Bridgewater, New Jersey, is a world class supplier of cryogenic and non-cryogenic gas plants, and has successfully executed EPC projects in the US, South America, Europe, the Far East, and the Middle East. AMCS plans, designs, procures and erects process plants and equipment. In addition to the industrial gas market, AMCS supplies plants to the energy, chemicals, environmental, electronics and semiconductor, pharmaceuticals, glass, pulp and paper, and metals market.

AMCS owns several key technology patents. The ranges of AMCS ULTRA Series plants include ASUs producing oxygen, nitrogen, argon, neon, helium, krypton and xenon. In addition, AMCS supplies plants for ultra high-purity electronic gases production, liquefied natural gas (LNG) production, and gas processing applications.
