

AMCS Equipment Solutions:

Along with custom designed facilities which meet complex needs, AMCS offers our ULTRA Series[®] of standard plants to our clients who need less complex facilities. We also offer plant equipment or components to those customers who wish to upgrade portions of their facility with new or refurbished equipment.

Our Equipment:

Our typical equipment would include the following plant sections/equipment sets:

- Liquefiers
- Generator Control Systems
- Plant Control Systems
- Front End Equipment
 - Compressor
 - PPU
 - Refrigeration Unit
- Backup and Storage Area
 - Tanks
 - Vaporizers
